Ottawa workshop -- Draft agenda -- 31.07.17.docx

**Cc:** Expert Group for Development of Cost-Benefit Workshop for Chemicals

Invited Experts to Cost-Benefit

ENV Counsellors to OECD Permanent Delegations

Dear Colleagues,

This is a final reminder to register for the Workshop on Socioeconomic Impact Assessment of Chemicals Management to be held on 30-31 August 2017 at Courtyard Marriott in the Byward Market, Ottawa, Canada. A large number of leading experts from across the globe will be participating in the workshop and helping to advance the application of cost/benefit analysis for chemicals management. We encourage additional participation from member country delegates and encourage you to register if you have not yet done so.

This workshop has the objective to discuss best practices in assessing the social costs of management of selected chemicals. Social costs include both private costs (such as costs to business) and externalities (such as the cost to society of environmental pollution). The workshop will focus mainly on valuation of the benefits to society of managing chemicals but also include discussion of the valuation of the costs to business in the context of the case studies.

Case studies for Mercury Containing Compounds, Formaldehyde, PFOA and salts, Phthalates and NMP and horizontal lessons learned will be discussed.

Three of the background documents for the workshop are prepared and available on the community site (<https://community.oecd.org/community/costbenefitchemicals>), the remaining ones will be posted in the next week or two. There are also links to other key background documents available in the public domain. Comments on the background documents can be provided at the workshop, and in writing by **15 September**.

If you have any questions regarding the workshop, please contact Eeva Leinala ([eeva.leinala@oecd.org](mailto:eeva.leinala@oecd.org)) or Nils Axel Braathen ([Nils-Axel.BRAATHEN@oecd.org](mailto:Nils-Axel.BRAATHEN@oecd.org)).

Kind regards,

Bob Diderich
